HISTORIC CHURCHES AND ABBEYS

There are so many to choose from but here are some of our favourites:

**All Saints’ Church, Brockhampton (1902)** - was designed and built by William Lethaby, one of the leading lights of the Arts & Crafts Movement. Grade I listed in recognition of its architectural importance, Pevsner wrote it was ‘one of the most impressive and convincing churches of its date in any country’. It was commissioned and privately funded by Alice Foster, of Brockhampton Court, in memory of her parents Ebenezer and Julia Jordan of Boston, Massachusetts. A small replica of the church can be found at the top of the Monterey Grasmere Hotel skyscraper in Osaka, Japan – used as an English-style wedding venue!

**Church of St. Mary and St. David, Kilpeck** - ‘one of the most perfect Norman churches in England’ Pevsner. There was a Saxon church on this site in 640 and it is thought this was built around 1140. Attributed to Herefordshire School of stonemasons, the elaborate, distinctly un-christian, Romanesque carvings were probably inspired by a pilgrimage to Santiago de Compostella or by relics from the First Crusade. Similar carvings can be found in churches in Eardisley, Leominster and Castle Frome.

**Dore Abbey** - is one of the great medieval monasteries of Herefordshire, with probably the finest surviving Cistercian church in England. The Abbey is a major example of Norman and medieval monastic and church architecture in the country and one of the oldest buildings in Herefordshire still in use for its original purpose.

**St. Francis Xavier Church** - another of Hereford’s jewels, it is very close to Hereford Cathedral and sometimes overlooked. The general decorations of the church are by Joseph Hanson of Preston. It is of the Doric order of Greek architecture.
with a façade based on the Treasury of the Athenians at Delphi. The interior is that of a ‘hall church’ with an elegant coved ceiling and three square panels. The dome, which rises to 60 feet and decorated with 390 gold stars on a blue background, is inspired by the ceiling of the mausoleum of the Christian empress Galla Placidia in Ravenna.

**Shobdon Church** - with its combination of English Rococo and Gothic architecture, it is a hugely important building with a direct connection to Walpole’s Strawberry Hill, Twickenham and the ‘Committee of Taste’, which strongly influenced its rare Walpolean Gothic design. “...a wonderful building, of unique architectural interest and a treasure which we must preserve...”. About an hour’s drive away, there is also a good train service from Hereford.

Malvern - in Worcestershire, the quintessential spa town famed for its mineral springs from the Malvern Hills and annual RHS shows. About 40 minutes’ drive from Hereford and a short train ride, we recommend visiting the Malvern Theatre (WR14 3HB malvern-theatres.co.uk 01684 892277) and the Morgan Car Company (WR14 2LL morgan-motor.com 01684 573104). Hire car packages are available or take one of their up close and personal factory tours.

Ross-on-Wye - aka the ‘birthplace of British tourism’, the town is famous for its view of St. Mary’s Church rising proud above the sprawling River Wye. We recommend the 16th century Market House, The Prospect Walk or Museum Without Walls, the chic emporium Baileys Home (HR9 6JU baileyshome.com 01989 561931), Rossiters independent book shop (HR9 5HL rossitersbooks.co.uk 01989 564464).
